

AI Innovation Redefines Convenience Retail at NACS Chicago 2025

Chicago, IL | October 2025 – Encore Technologies Inc. is set to redefine the future of convenience and fuel retailing with the debut of its **next-generation AI-powered Back Office - CstoreCEO and Point-of-Sale – ET-POS platform** at the **NACS Show 2025, Booth #S4993**.

Purpose-built for today's dynamic retail landscape, the new platform delivers **real-time automation, intelligent pricing analytics, and predictive business insights** — empowering store owners and multi-site operators to run smarter, faster, and more profitably.

“This is more than just technology — it’s a transformation,” said **Rahim Budhwani, CEO of Encore Technologies Inc.** “We built this to **level the playing field** for every convenience store operator. Whether you run one store or one hundred, you deserve **enterprise-grade innovation** that’s simple, smart, and affordable.”

Designed from the ground up with deep industry expertise, Encore’s platform bridges critical gaps between the back office and front-end operations — bringing together POS, inventory, pricing, and analytics under a unified AI-driven ecosystem.

Key Highlights & Features

- **AI-Powered Operations** – Automate inventory tracking, detect shrinkage, and forecast demand with precision.
- **Smart Pricing Intelligence** – Monitor local competitors in real-time and adjust prices strategically to stay profitable.
- **Unified Command Dashboard** – Manage your entire business—from sales to supply chain—from one connected, cloud-based system.
- **Seamless POS Integration** – Synchronize transactions, promotions, and loyalty programs across locations effortlessly.

- **Scalable Architecture** – Tailored for both independent entrepreneurs and large enterprise networks.

Innovation Meets Industry Experience

Backed by years of innovation across the Encore ecosystem, the platform merges **AI analytics, automation, and industry insight** to solve everyday challenges in retail operations — from managing complex inventories to optimizing margins in a competitive market.

Encore Technologies' participation at NACS 2025 reinforces its commitment to **empowering retailers with next-generation tools** that redefine convenience, transparency, and profitability in the c-store industry.

Visit Booth #S4993 at NACS Chicago 2025 to experience the technology reshaping retail convenience and meet the innovators driving this transformation.
