OPW Announces Winners of the 2022 Dover Scholars Program Through An Expanded Program

Hamilton, OH, May 2, 2022 – OPW recently announced the winners for the Dover Scholars Program:

**Joon Chun**, child of OPW employee Hee Chun, is a high school student attending Lawrence Free State High School in Lawrence, KS.

**Elizabeth Hutchinson**, child of Acme Cryogenics employee Daniel Hutchinson, is a high school senior attending Birchwood Academy in Bethlehem, PA.

**Benjamin Olenick**, child of OPW employee Douglas Olenick, is a high school senior attending Talawanda High School in Oxford, OH.

Joon, Elizabeth, Benjamin and Nikhil are four of the 30 winners representing Dover locations around the world through a recently expanded program reaching more students with larger scholarships.

Scholarships are made available to the children of full-time employees of Dover and its Operating Companies worldwide. Selections are made by a four-member committee of college admissions professionals from prominent universities based on academic excellence, leadership abilities and extracurricular activities. Winners represent both high school seniors and current college students and may receive up to $12,000 in scholarship support over the four years of their undergraduate education. Now in its eleventh year, the program has awarded 373 scholarships, providing approximately $2.6 million in financial support to deserving students.
“Congratulations to Joon, Elizabeth, Benjamin and Nikhil for being award four of the 30 scholarship granted worldwide,” said Kevin Long, President of OPW. “Recipients of this prestigious scholarship were selected from students who applied across all Dover Operating Companies globally. Being selected for this scholarship is a true honor and we commend our four awardees, along with the entire 2022 class of scholarship recipients for their outstanding achievements.”

About OPW:
OPW is defining what’s next through innovations designed to enhance safety, reliability, efficiency and business performance for the clean energy, retail fueling, fluid-handling and vehicle wash industries. Specifically, OPW makes aboveground and below ground products for both conventional, vapor-recovery and clean energy applications in the retail and commercial markets. Additionally, OPW supplies loading arms, valves and dry-break couplings, tank-truck equipment, rail car valves and equipment, and vehicle wash systems. OPW has manufacturing operations in North America, Europe, Latin America and Asia Pacific, with sales offices around the world. OPW is part of Dover Corporation.
