PMG Carolinas Extends LottoShield Partnership Across 73 Store Network

San Ramon, CA, [December 26, 2025] — PMG Carolinas, a premium convenience retail operator with 73 stores across the Carolinas, extends their partnership with LottoShield, deploying the platform across their entire store network to improve operational efficiency and support a better customer experience.

LottoShield is a fully automated lottery management platform designed for convenience retailers. The platform provides real-time inventory tracking, theft prevention capabilities, and automated reconciliation, with integrations across state lottery systems, POS, and back-office software.

“LottoShield has become an important part of how we scale lottery operations efficiently while maintaining control across a growing store network,” said Adnan Tariq, Director of Operations at PMG Carolinas. “It has significantly helped reduce lottery shrink and simplified day-to-day lottery management for our teams.”

Mehdi Mahmoodi, Co-Founder and President of LottoShield, added, “PMG Carolinas’ decision to extend its partnership underscores the importance of having the right operational foundation in place as retailers scale. We’re proud to support their growth with tools that simplify lottery management without adding operational burden.”
