

Partner Tech to Host "Unlocking the Power of Self-Checkout" Live Webinar Series

Webinars tailored to grocers of all sizes, including those with no previous self-checkout experience and grocers who are looking for strategies and tools to improve the performance of their current self-checkout technology.

Anaheim, CA – April 4, 2024 – Partner Tech USA Inc, a premier manufacturer and innovator of intelligent POS and self-checkout solutions, is excited to announce two upcoming webinars focused on [self-checkout \(SCO\)](#) on April 18 and April 25, tailored specifically for grocers of all sizes. These webinars present a unique opportunity for retail customers to delve deeper into the advantages of SCO technology. Led by Shane Colvin, our Senior Lead of Store Transformation, these sessions will shed light on how SCO systems can significantly enhance store efficiency and mitigate challenges related to labor shortages. Furthermore, Shane will explore the role of AI in minimizing interventions and preventing theft.

Here are the details for each webinar:

Webinar #1: Self-Checkout Benefits and Theft Prevention Strategies for Small and Medium-Sized Grocers

2:00-2:45 pm ET, Thursday, April 18, 2024

MORE INFO & SIGN UP HERE

Are you evaluating self-checkout (SCO) and worried about costs and complexity? Join our webinar to explore the benefits for small and medium-sized grocers. Discover how a SCO can boost capacity during peak hours without the need for additional cashiers, improving customer satisfaction. Learn strategies to prevent theft and shrinkage.

Topics covered:

- Benefits of self-checkout
- Managing theft and shrinkage
- AI tools, computer vision and security scales
- Remote monitoring and performance tracking
- ROI model for small and medium-sized retailers
- Integration with your existing POS

Who should attend:

Small and medium sized grocers interested in exploring self-checkout

Webinar #2: Strategies for Optimizing Self-Checkout for Better Performance and Reduced Shrinkage

2:00-2:45 pm ET, Thursday, April 25, 2024

MORE INFO & SIGN UP HERE

Is your self-checkout system underperforming due to theft and frequent interventions? Join our second webinar to explore proven strategies for optimizing your current SCO for success. Discover tools to enhance the customer experience, minimize losses, and learn how to implement them with your existing SCO technology.

Topics covered:

- Building blocks of a successful SCO
- AI-based crime predictor & pick list assistant
- Monitoring and performance tracking
- Integration with your existing POS
- Strategies for prolonging the lifetime of your SCO hardware

Who should attend:

Grocers who have already invested in self-checkout and looking to improve the performance of the system.

About Partner Tech

Founded in 1990, [Partner Tech](#) has more than 30 years' experience as a leading innovator and manufacturer of Android and Windows-based POS terminals, kiosks, self-checkout systems, tablets, mobile computers, and digital signage.
