“High’s of Baltimore strives to offer its employees the best benefits in the industry,” said Katie Alford, HR Manager “We value our employees and want them to grow with us!”

High’s Now Offering Benefits to Part-Time Employees

About High’s

In 1928, the High’s brand was born— the ice-cream store chain grew rapidly throughout the Mid-Atlantic States. At one time there were more than 500 locations, making High’s the largest ice-cream store chain in the world!

In 2012, Carroll Independent Fuel acquired High’s and began to build off of the strong heritage that everyone knows and loves. Today, High’s is a chain of 47 convenience stores run by a team of 500 individuals.

Baltimore, Maryland (July 10, 2018) — In an unprecedented move, High’s will begin to offer health insurance benefits to part-time employees next week. This comes in the wake of many companies dropping benefits for their part-time employees. As health care costs continue to rise, High’s is striving to ensure that nearly 250 part-time employees are not without options. Employees will have access to an affordable health care plan, subsidized by the company that includes the following:

- Free unlimited Teladoc visits
- Free preventative care services
- Free primary care physician visit
- Discounted Prescriptions

Employees will have the options for individual coverage, employee and spousal, employee and child coverage, as well as family coverage.
