FOR IMMEDIATE RELEASE

HOSHIZAKI AMERICA, INC. BREAKS GROUND ON NEW WAREHOUSE IN PEACHTREE CITY, GA

PEACHTREE CITY, GA (MARCH 6, 2024) – Hoshizaki America, Inc., a leading innovator in commercial kitchen equipment, is proud to announce the groundbreaking for its new two-story warehouse, located adjacent to its current manufacturing facility in Peachtree City, GA.

The groundbreaking marks the beginning of construction for a 120,000 square foot facility that will revolutionize Hoshizaki's material flow throughout fabrication and assembly processes for its commercial ice machines. This investment in infrastructure will significantly enhance logistics, reduce lead time, and accommodate future production growth, ultimately bolstering Hoshizaki's capacity to meet the evolving demands of its customers.

Scheduled to commence construction in March 2024, with completion slated for June 2025, the new facility will bring component warehousing back on-site. And by partnering with MEJA Construction, another local Peachtree City business, for design and construction, Hoshizaki reaffirms its dedication to sustainability and community collaboration.

"This groundbreaking is more than simply an expansion of our physical footprint, but another step toward operational excellence," said Allan Dziwoki, President of Hoshizaki America. "The investment is a testament to our commitment to

innovation, efficiency, and, most importantly, our dedication to meet the evolving needs of our customers. I look forward to joining hands as we expand the foundation for a future built on the principles of progress and sustainability."

A ceremony held on site today was attended by key Hoshizaki leadership, local officials, and representatives from local development and manufacturing organizations, highlighting the significance of this project for the community and industry stakeholders alike.

About Hoshizaki America

Hoshizaki America, Inc., a member of the Hoshizaki Group, is a leader in the design, manufacturing, and marketing of a wide range of products for the foodservice industry including ice machines, refrigerators, freezers, prep tables, display cases and dispensers.
