Dear NACS Supplier Board Nominating Committee

I am writing to recommend John Thomas for the NACS Supplier Board.

I have known John for over 15 years as both a supplier, while he was at Anheuser-Busch calling on Sunoco, and as a friend.

As indicated on the NACS website, "The mission of NACS is to represent the convenience and motor fuels retailing industries and provide the knowledge, connections and advocacy necessary to deliver the compelling value of membership", and from my experience, John is this kind of person. His 25+ years' experience, in our industry, give him the knowledge and connections to assist your board, with its mission and his enthusiasm and helpful nature will make him a great person to advocate for all NACS retailers.

One example of his character is when he came to me and indicated that he discovered the data for schematics ABI provided was incorrect and overstated. He could have easily allowed this to go undetected and give ABI a great advantage, but he chose to bring it to my attention. I believe John will give you the same honesty and integrity that he has brought to our business. He approaches the business with the attitude that the vendor/retailer relationship is a partnership and that both sides need to have wins.

Based on my experience, knowing "JT", as I do, I can confidently recommend John Thomas for the NACS Supplier Board.

Sincerely,

Wendy Lyman
