SOLINK®

How c-stores are unlocking **new value** from their cameras

What is Solink?

Solink is a video security and analytics platform that **integrates with your existing cameras and point-of-sale (POS) system**, providing real-time insights to help c-stores detect theft, respond to crime, increase efficiency, and drive sales.

Designed for multi-location, brick-and-mortar businesses, Solink enables security, loss prevention, and operations teams to work smarter, not harder.

Why convenience retailers choose Solink

Improved visibility
Monitor activity across multiple stores remotely, on any device. View daily summaries of key data and get real-time alerts for anomalies.

User-friendly tools
Quickly find video of slip-and-falls or property damage by skipping to periods of motion. Save clips to the cloud and share access with police.
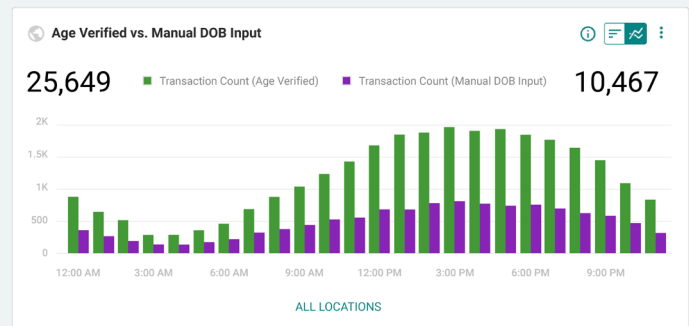

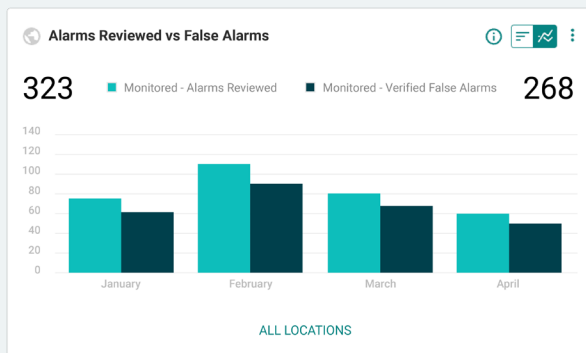

Increased productivity
Conduct investigations faster with paired video and POS data. Search by keyword to find specific sales, then watch video for context.

Reduce liability risk for controlled product sales

- Connect cameras and POS data to Solink
- Review dashboard of age verifications
- Watch video to confirm instant approval vs. DOB input

Age Verified vs. Manual DOB Input

25,649   ■ Transaction Count (Age Verified)   ■ Transaction Count (Manual DOB Input)   10,467

ALL LOCATIONS

Alarms Reviewed vs False Alarms

323   ■ Monitored - Alarms Reviewed   ■ Monitored - Verified False Alarms   268

ALL LOCATIONS

Avoid the hassle (and cost) of false alarms

- Turn cameras into video alarms
- Watch video to verify real threats
- Improve police response time and eliminate false alarm fines
